Subject: Microsoft Settlement

To whom it ma concern,

I'm a systems administrator for a large corporation.

Daily I have to deal with the poor quality software provided by Microsoft.
I feel that users both personal and corporation disserve a better product.

The Security is also very poor in their systems.

By giving Microsoft a option to put More PC's in schools only advances their
market share more!

Please, do something about this problem, I feel that our economy is
stagnate because of the time and money corporations spend on fixing
Microsoft's problems.
